Star Parker Housing Analysis Featured by Council for National Policy

CURE President and Founder Star Parker was featured in this month's *Member Momentum* newsletter of the Council for National Policy, where she is a Gold Circle member. The newsletter highlighted her recent article on protecting vulnerable American homebuyers from financial bubbles.

CNP highlighted how the piece pointed out the hypocrisy of Democrats, who claim to stand for the poorest Americans, but cheered the "big government smash down" in 2008's crash, and push policies to drive another crash today.

Members of CNP are some of America's top conservative leaders, driving real change by introducing big ideas to the most impactful organizations and government offices. They meet to build relationships and share policy ideas on a quarterly basis.
